Indiana law provides that the custodial parent of a child can make all decisions necessary regarding a child's education. Therefore, any information regarding a students' status, school records, or grades will be released only to the custodial parent.

We will require a copy of the legal court custody ruling to place on file at the school.

The custodial parent will fill out a supplemental registration form, which deals with transportation of the child/children and release of information to the non-custodial parent.
